- CD-ROM (CAMEDIA Master and reference manual) ................................................................. 1
- Quick Start Guide ............................................... 1
- Warranty Card ................................................... 1
- Basic Manual ...................................................... 1
- Owner’s Manual .................................................. 1

**NAMES OF PARTS**

1. Battery compartment cover
2. Lens barrier
3. Flash
4. Self-timer lamp
5. Card cover
6. Strap eyelet
7. Viewfinder
8. Orange lamp
9. Battery compartment cover
10. Connector cover
11. Tripod socket
12. Monitor button
13. OK/Menu button
14. Arrow pad
15. Monitor
16. USB connector
17. DC-IN jack
18. Monitor
19. Arrow pad
20. Battery compartment cover

**ATTACHING THE STRAP**

1. Pass the short end of the strap through the strap eyelet.
2. Pass the long end of the strap through the loop.
3. Pull tight and check that it is securely attached.

**LOADING THE BATTERIES**

Check that the lens barrier is closed and both the monitor and the orange lamp are off.

1. Slide the battery compartment cover toward \( \square \) and lift it up in the direction of \( \square \).
2. Insert the batteries as shown, making sure that they are correctly oriented.
3. Push down the battery compartment cover in the direction of the arrow \( \square \) and close firmly in the direction of \( \square \) until it clicks.

**INSERTING THE SMARTMEDIA CARD**

Check that the lens barrier is closed and both the monitor and the orange lamp are off.

1. Open the card cover.
2. Insert the card in the direction shown in the figure.
3. Close the card cover securely until it clicks.

**SETTING THE DATE AND TIME**

Press the \( \square \) button to turn the monitor on.

1. Press the \( \square \) button to display the menu.
2. Select [SETUP] using the \( \square \)/\( \square \) buttons and press the \( \square \) button.
3. Select [DATE] using the \( \square \)/\( \square \) buttons and press the \( \square \) button.
4. Select the date format "Y-M-D (Year-Month-Day)", "M-D-Y (Month-Day-Year)" or "D-M-Y (Day-Month-Year)" using the \( \square \)/\( \square \) buttons and press the \( \square \) button.
5. Set the first figure using the \( \square \)/\( \square \) buttons, and then proceed to the next figure using the \( \square \) button.
6. Repeat the above procedure until the date and time settings are adjusted.
7. Press the \( \square \) button when the clock reaches 00 seconds.
8. Press the \( \square \) button to turn the monitor off.

**FLASH**

1. Open the lens barrier.
2. Check the current flash mode by pressing the \( \square \) button.
3. To change the setting, press the \( \square \) button until the appropriate flash mode is displayed.
4. Setting of the flash mode is completed.

**MACRO**

This mode enables you to take close-up pictures at a distance of 15cm-50cm (4.7-1.6ft).

1. Open the lens barrier and press the \( \square \) button to display the current setting (OFF).
2. Press the \( \square \) button again to set the Macro (\( \square \)) mode.
3. Take a picture by looking at the monitor.

**DIGITAL TELE**

1. This mode enables you to take pictures in six magnifications: 1.6\( \times \), 2.0\( \times \), 2.5\( \times \), 3.2\( \times \), 4\( \times \) or 5\( \times \).
2. Open the lens barrier and press the \( \square \) button to turn the monitor on.
3. The image is magnified in the sequence [1.6\( \times \) \( \rightarrow \) 2.0\( \times \) \( \rightarrow \) 2.5\( \times \) \( \rightarrow \) 3.2\( \times \) \( \rightarrow \) 4\( \times \) \( \rightarrow \) 5\( \times \) ] each time the \( \square \) button is pressed.
4. The image is zoomed out in the sequence [4\( \times \) \( \rightarrow \) 3.2\( \times \) \( \rightarrow \) 2.5\( \times \) \( \rightarrow \) 2.0\( \times \) \( \rightarrow \) 1.6\( \times \) \( \rightarrow \) OFF] each time the \( \square \) button is pressed.
5. Take a picture by looking at the monitor.
6. The image quality needs to be set to SQ2 to magnify 3.2\( \times \), 4\( \times \) or 5\( \times \).

**SELF-TIMER**

1. Press the \( \square \) button with the lens barrier open to display the Camera menu.
2. Select [CAMERA] using the \( \square \)/\( \square \) buttons and press the \( \square \) button.
3. Select [DRIVE] using the \( \square \)/\( \square \) buttons and press the \( \square \) button.
4. Select (SELF-TIMER) using the \( \square \)/\( \square \) buttons and press the \( \square \) button.
5. Press the \( \square \) button again to exit the menu.
6. Press the shutter button.
7. The self-timer lamp on the front of the camera lights up for 10 seconds and then blinks for 2 seconds, before the picture is taken.
