**FAQ**

**Shooting**

1. **How do I turn on the Monitor?**
   - Press the monitor ( ) button.

2. **How do I take a clear picture easily?**
   - Try setting the "P" mode on the mode dial if you are a beginner. Your camera will then automatically decide the best settings.

3. **How do I stop the beep each time I press a button?**
   - Set the mode dial to any position, then press the OK/Menu button ( ). Select MODE MENU — CAMERA — FUNCTION — OFF, then press .

4. **How do I reduce "red-eye"?**
   - Try the red-eye reduction flash. To select this mode, press until appears on the monitor/control panel.

5. **How do I take a black & white or sepia tone picture?**
   - Set the mode dial to the desired position, then press . Select MODE MENU — CAMERA — FUNCTION — BLACK &WHITE or SEPIA, then press again.

6. **How do I brighten a subject when the background light causes it to be underexposed?**
   - Use spot metering to obtain proper exposure in an extremely backlight situation.

7. **How do I focus on subjects when the autofocus does not work?**
   - Try using focus lock. Move the camera slightly away from the subject and press the shutter button halfway. When the camera autofocuses, move the camera back to the original position while continuing to hold the shutter button halfway. Then, without releasing the shutter button, compose the desired picture and press the shutter button fully to take the picture.

**Playback**

1. **How do I check my picture right after shooting?**
   - Press the monitor button ( ) twice quickly without turning the mode dial to . The picture you just took will be displayed. If you don’t like it, press , select YES, then press to erase it. Use the Arrow pad to select other pictures to check. Press the shutter button halfway to return to the shooting mode.

2. **How do I view my pictures on a TV?**
   - Connect your camera’s AV output terminal to your TV’s AV input terminal using the provided AV cable. Also, refer to your TV’s instruction manual before connection.

3. **How do I display thumbnail pictures on the camera?**
   - Set the mode dial to . Then press the menu button ( ). Select MODE MENU — PICTURE — SECURE — OFF, then press .

4. **How do I avoid missing pictures on a card at the same time?**
   - Attack the possible crumpled end of the part of the card marked with .
