**QuickStart Guide**

C-770 Ultra Zoom

Thank you for purchasing an Olympus digital camera.

### START HERE

It is strongly recommended that you follow these step-by-step QuickStart Guide before using the camera for the first time. The information will be recorded (Charging time: Approx. 120 min.)

### 1. UNPACKING THE BOX CONTENTS

Gather your digital camera and the parts as shown in the illustration. You’ll need these to complete the steps for the camera set-up procedures that follow.

- Digital camera
- Strap
- Lithium ion battery (LI-10B)
- Lithium ion battery charger (LI-10C)
- USB cable
- DV cable
- Basic manual
- Remote control device
- CD-ROM/Installation guide
- xD-Picture Card/Card manual

The following items are also included in the Digital camera package: lens cap & string, warranty card, registration card (not provided in some areas), and safety precautions booklet.

### 2. PREPARING THE CAMERA FOR USE

Before you begin using your Olympus Digital camera...

**a. Charging the Battery (LI-10B)**

The battery is not fully charged when purchased. Before use, be sure to charge the battery with the specified charger provided (LI-10C).

1. Insert the battery.
2. Open the battery compartment/card cover.
3. Insert the card.
4. Insert the battery.
5. Close the battery compartment/card cover.

### 3. TURNING ON THE CAMERA

1. Make sure the power switch is in the OFF position.
2. Set the mode dial to and slide the power switch to .
3. To turn the camera off, slide the power switch to OFF.

### 3a. Turning the Camera On (Shooting mode)

1. Press the tabs on the lens cap to remove it.

### 3b. Setting the Date and Time (Shooting mode: mode)

Set the date and time before using the camera for the first time. The information will be recorded with each picture.

1. Display the top menu.
2. Display the screen.
3. Select the date format.
   - The following steps show the procedure used when Y-M-D is selected.
4. Move to the year field.
5. Set the year.
6. Repeat steps 4 and 5 until all date/time fields have been set.
7. Press to set the date and time and exit the menu.

### 3c. Camera Diagram and Controls

Now take a moment to familiarize yourself with the key areas of camera controls by reviewing the illustrations.

- Shutter button
- Flash button
- Flash mode button
- Self-timer/Remote control button
- Protect button
- OK/Menu button
- Arrow pad
- Monitor button
- Monitor Indications in Shooting Mode
- Monitor Indications in Playback Mode

**TIPS**

- To maximize battery life, the monitor turns off if the camera enters sleep mode after approximately three minutes of non-use. To reactivate the camera, press the shutter button or zoom lever.
- Depending on the camera settings, not all indicators will be displayed.

### 3d. Attaching the Strap and Lens Cap

Thread the strap through the lens cap string as illustrated before attaching the strap to the camera.

- Attach the strap to the other eyelet.

### 3e. Inserting the Battery and xD-Picture Card

1. Set the date format.
2. Move to the year field.
3. Set the year.
4. Repeat steps 4 and 5 until all date/time fields have been set.
5. Press to set the date and time and exit the menu.
5. VIEWING AND ERASING PICTURES

With a digital camera, you can easily view the photos you want—and delete the ones you don’t.

a. Viewing Pictures

1. With the camera in the shooting mode, press the QUICK VIEW button.
   • The last picture taken appears in the monitor.

2. Use ( ) to scroll through all the images saved on your XD-Picture Card.

Press the shutter button to make the flash pop up.

b. Erasing Pictures

Once erased, pictures cannot be restored. Check each picture before erasing to avoid accidentally deleting pictures you want to keep.

Single-Frame Erase:
Delete only the picture currently displayed in the monitor.
1. Display the picture you want to erase (1) and press .

2. Press YES. The picture will be erased.

All-Frame Erase:
Deletes all pictures on the XD-Picture Card in one operation, except for pictures you have protected.
1. Display the top menu.

2. Select MODE MENU.

3. Select the CARD tab.

4. Select CARD SETUP.

5. Display the CARD SETUP screen.

2. Select ALL ERASE.

3. Select YES.

4. Select ALL ERASE.

5. Press . All unprotected pictures will be erased.

6. CONNECTING THE CAMERA TO A COMPUTER

Olympus makes it simple to connect your camera to a computer and download pictures.

Press : A complete reference guide in digital form, depending on the shooting conditions and the effect you want to achieve.

Windows 98 and 98SE users must install the CD-ROM before connecting the camera to the computer. Refer to the DIGITAL CAMERA PC CONNECTION MANUAL for complete information.

Make sure the camera is turned off before connecting it to your computer.

1. Slide the power switch to OFF to turn the camera off.

2. Plug the USB cable provided with the camera into the USB port on your computer.

3. Plug the other end of the USB cable into the USB connector on your camera.

4. Slide the power switch to .
   • The camera starts communicating with the PC and the selection screen for the USB operation is displayed on the camera's monitor.

5. Select PC and press .
