10. Emailing a Picture

Using the OLYMPUS Master software (included), you can share your pictures with others by using the built-in e-mail feature.

After installing OLYMPUS Master, open the program and click the (Browse Image) icon. From the (Browse Image) window, select the picture(s) you want to send and click the (Send to E-mail) tool button.

At this time, you can resize your pictures making them more manageable to e-mail. This helps you to stay within the e-mail capacity limitations set by your e-mail provider.

When finished, click the (Launch Mailer) button at the bottom of the window. Your default e-mail program will open and the selected picture(s) will automatically be attached to a new e-mail.

PRINTING A PICTURE

Using the OLYMPUS Master software (included), you can make prints of your pictures using your own photo printer.

After installing OLYMPUS Master, open the program and click the [Print] menu. You can create many different types of prints such as an index print, photos, albums, or calendars. Simply select the [index] and add them to one of the many layouts within OLYMPUS Master. For detailed instructions, please refer to the [Help] menu in the software.

Alternatively, you can print your pictures by connecting your PinBridge compatible camera directly to a PinBridge compatible printer, such as the Olympus P-10 Digital Photo Printer. This permits fast, easy printing without using a computer.

You may also order prints online using the [Print Online] feature in OLYMPUS Master software.

* For detailed instructions on using PinBridge, please refer to your camera’s Advanced manual included in digital format on the CD-ROM.
